COMMUTER SERVICES
OF PENNSYLVANIA
*Serving Adams, Berks, Cumberland, Dauphin,
Franklin, Lancaster, Lebanon, Perry & York Counties*

In April, we celebrated Earth Day all month long. We encouraged commuters to record their green commutes in Commute PA and participate in our social media campaign by answering questions. We also held a competition between 27 organizations, almost double the amount from last year, to see who could track the most green trips.

Congratulations to **Eurofins (Lancaster)** for winning the competition again with 1,043 green trips! Special thanks to our runners-up, **Franklin & Marshall College (Lancaster, 753 green trips)**, **County of Lancaster (518 green trips)**, **County of Franklin (285 green trips)**, and **Thermo Fisher Scientific (Dauphin, 252 green trips)**.

We are grateful to everyone who participated in our Earth Month celebration. Your efforts helped reduce traffic congestion and improve air quality. View our Commute PA monthly statistics below!

.....

The beginning of 2023 arrived with new and exciting changes for the Board of Directors of the Susquehanna Regional Transportation Partnership (S RTP). After four years as Chair, the term of Michael Golembiewski (center in photo) from the Berks County Planning Department came to an end.

Action was taken at the January meeting to elect Lauri Ahlskog (left in photo) from the South Central Transportation Authority (SCTA) as the new Chair. Lauri is no stranger to the S RTP and has served on the board as both a representative of the Lancaster County Planning Department and now the SCTA. She will provide outstanding leadership through the utilization of her array of professional talents and long-standing relationships with board participants and community members across the region.

Lauri's direction over the next two years will enable the S RTP to continue its outstanding delivery of Transportation Demand Management programs and services and spearhead future growth of an organization that has been around for almost 20 years. Please join us in congratulating Lauri on this fine accomplishment!

Commuter Services of PA celebrates and recognizes, Jeff Glisson (left in photo) with South Central Transportation Authority (SCTA), who is stepping down from the Susquehanna Regional Transportation Partnership board of directors, after being a founding member almost 18 years ago.

We thank Jeff for sharing his pioneering spirit, pledge to find cooperative solutions to transportation challenges, ability to engage successful partnerships across county boundaries, dedication to improving regional air quality, commitment to excellence, service on the Executive Board, and tireless support of our programs!

Find us!

National Bike to Work Day was on May 19th, and we encouraged regional commuters to try bicycling throughout the month of May. Commuters could record their bike trips in Commute PA and answer bike-related questions on our social media pages.

To add some friendly competition, 15 organizations participated in a Commute PA race to encourage their employees to bike to work. Congratulations to **Franklin & Marshall College (Lancaster)** and their faculty, staff, and students for having the most bike trips in May with 294! We also celebrate **County of Berks (95 bike trips)**, **Eurofins (Lancaster, 66 bike trips)**, **County of Lancaster (47 bike trips)**, and **Quality Bike Products (Lancaster, 38 bike trips)** for promoting this endeavor. Check out all of the bike stats for May:
